WEEK 1

Audit

List every decision your system makes. Count them. Mark which are small, typed and frequent.

WEEKS 2–4

Measure

Pick one. Get a few hundred labels. Test ranking and calibration: Chapters 3 and 9.

MONTH 2

Shadow

Put costs on mistakes, set thresholds, run in shadow: Chapters 4, 11 and 13.

MONTH 3

Switch, and watch

Switch on with a fail-safe, an audit and a daily monitor. Then the next decision.
