? **Does Jev's calibration hold on data like yours?**

Chapter 9 tells you how to find out.

? **How fast do System One models improve, and do they drift between versions?**

Pin versions; re-test.

? **Will prices stay this low?**

Early-access prices change. Chapter 15 shows what depends on it.

? **Who else builds decision models?**

The interface pattern outlives any one vendor.

? **How will rules on automated decisions evolve?**

Keep people deciding where stakes are high.
