Writing rules

Every new trick needs a new exception

```
IF the email says “password”   flag it
```

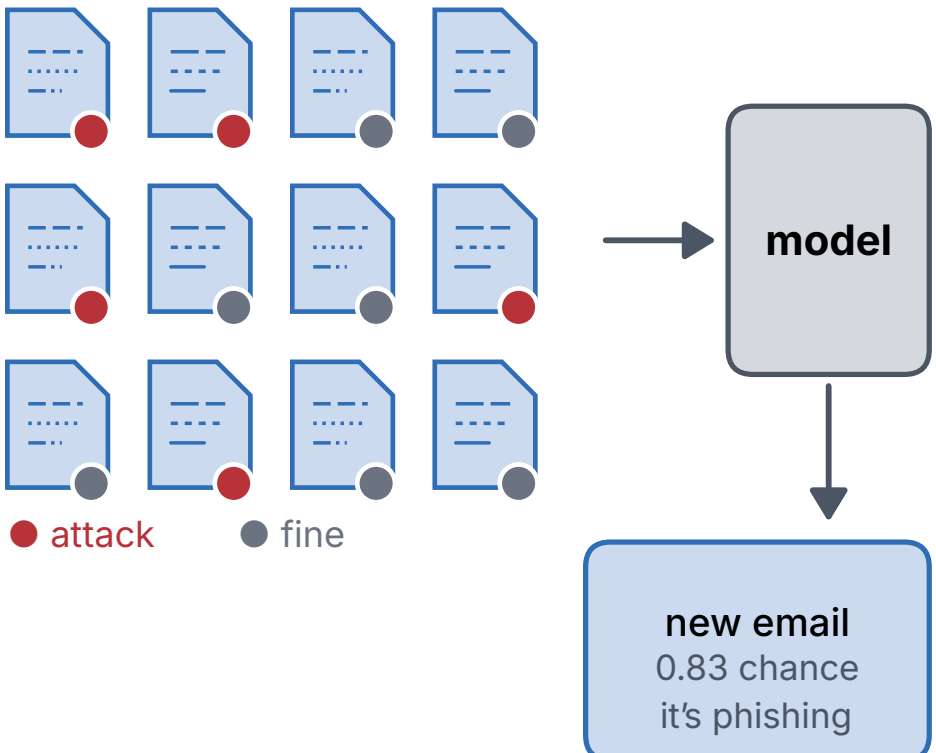
```
…unless it’s IT’s reset tool   don’t
```

```
…unless it says “passw0rd”   flag it
```

```
…unless it’s in an image   ?
```

```
…unless it’s only a link   ?
```

+ hundreds more, and still behind

Learning from examples


Show it cases; let it find the pattern
