Ask an LLM for JSON

```
{
  "verdict": "malicious",
  "confidence": 0.95,
  "rule": "mfa_fatigue"
}
```

text you parse, a number it wrote

Ask a typed decision question

```
answers["attack"]:
  type="noul"
  noul=0.68
answers["kind"]:
  choice="credential_abuse"
  probabilities={...}
```

typed data, a probability per option

illustrative values
