YOUR PROGRAM
THE MODEL
THE FUNCTION
1 messages + tool list
"Where is TK-5521?"
2 AI message with a tool call
check_order_status(order_id="TK-5521")
the model only asks; your code decides and runs
3 your code runs the function
4 "Out for delivery, by 7 pm"
5 everything so far + a tool message
with the result
6 The model writes the reply:
"Your parcel arrives today by 7 pm."
