Where is the knowledge?
How good is the question?
How do you check what was found?
Who decides where to look?
Meaning: vector RAG
Exact words: BM25
Both: hybrid RAG
Tables: text-to-SQL
Relationships: graph RAG
Page images
The live web
Rewrite it
Split it
Write a guess answer (HyDE)
Grade the chunks (corrective RAG)
Model critiques itself (self-RAG)
Fixed pipeline
A router picks (adaptive RAG)
The model, in a loop (agentic RAG)
