About the examples in this book. Tarkika, its customers and its staff are imagined. Every number about Tarkika, and every price marked as an example, is assumed, to explain the ideas clearly; none is a measurement of a real company or product. Facts about real companies, products and incidents are cited.

Products and services change quickly. Model names, versions and prices were checked on the date given in the version register in Appendix A. All trademarks belong to their respective owners.
