

Ask an LLM for JSON

```
{  
  "verdict": "malicious",  
  "confidence": 0.95,  
  "rule": "mfa_fatigue"  
}
```

text you parse, a number it wrote

Ask a typed decision question

```
answers["attack"]:  
  type="noul"  
  noul=0.68  
  
answers["kind"]:  
  choice="credential_abuse"  
  probabilities={...}
```

typed data, a probability per option
